Also Includes Items from Release(s):	Beta 1, RC1, Beta 2

What's New?

Following is a summary of the enhancements and new features added in this software release. Unless you requested to be a Release Candidate, the features listed below are not available until the General Release date noted above.

Enhancement: **PD-1758: Shippo Customs Update**

Version: 7.4, 5.15

System Path: Shippo

Description: Added support for sending Customs information to Shippo. When creating a label through the Shipment Manager, if the sender or recipient is outside of the US, a Customs Details form appears.

Enhancement: **PD-1744: Shippo Update**

Version: 7.4, 5.15

System Path: Shippo

Description: Added the ability to set a default label type and a signature confirmation setting.
 Fixed an issue with certain Shippo fields not getting sent to Shippo.

Bug List

The bug list is intended for reference only. In an effort to prevent any potential self-misdiagnosis, if you think that you have experienced a cited issue, please contact Support Team to verify. Although a listed bug might sound similar to your situation, it is best to confirm it.
