Bug List

The bug list is intended for reference only. In an effort to prevent any potential self-misdiagnosis, if you think that you have experienced a cited issue, please contact Support Team to verify. Although a listed bug might sound similar to your situation, it is best to confirm it.

Bug #	Description
BUG-16075	Fixed issue with Recurring Order creation from the Connect POS.
BUG-16071	Fixed issue with HTML in the product's name, which messed up the rendering of the product page in the Product Manager.
BUG-16066	Updated Tempus setting (System Settings > Payment Processors > edit that processor) to allow you to set whether that account accepts debit returns. Also, updated the return process across channels (Classic / Connect POSs and Back Office) to check that setting to determine whether to prevent debit returns. If it's not set, it won't prevent it.
BUG-16059	Fixed issue with customer export not correctly displaying the customer type.
BUG-16050	Fixed issue with Recurring Orders report's "Suspended" filter not accurately filtering against drop-down option selected.
