

Product Release Information

Product:	CORESense Application Software
Release Number:	Versions 5.15, 7.4 and higher
Release Dates:	Beta: August 4, 2015 Release Candidate: August 25, 2015 General: October 27, 2015
Customer Support:	support@coresense.com

What's New?

Following is a summary of the enhancements and new features added in this software release. Unless you requested to be a Release Candidate, the features listed below are not available until the General Release date noted above.

Enhancement: **PS - 3642: Image Refresh**

Version: 5.15, 7.4

System Path: Website

Description: Created a script that allows new website image versions to update without having to rename image files. This will clear cached images when new versions are uploaded.

Enhancement: **PS - 3945: Permanent Markdown Label Mapping**

Version: 7.4

System Path: Website

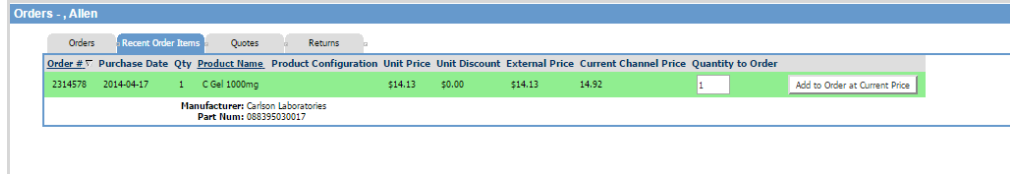

Description: Added the Permanent Markdown ("permanent_markdown") field as a mapping option to the label templates.

Enhancement: PS - 3672: Recent Order Items Tab

Version: 5.15, 7.4

System Path: SOI

Description: Added order item detail display fields to the Recent Order Items tab in the SOI Order History.

Order #	Purchase Date	Qty	Product Name	Product Configuration	Unit Price	Unit Discount	External Price	Current Channel Price	Quantity to Order
2314578	2014-04-17	1	C Gel 1000mg		\$14.13	\$0.00	\$14.13	14.92	1

Manufacturer: Carlson Laboratories
 Part Num: 088395030017

The fields to display can be selected from System Settings > Channels > SOI:

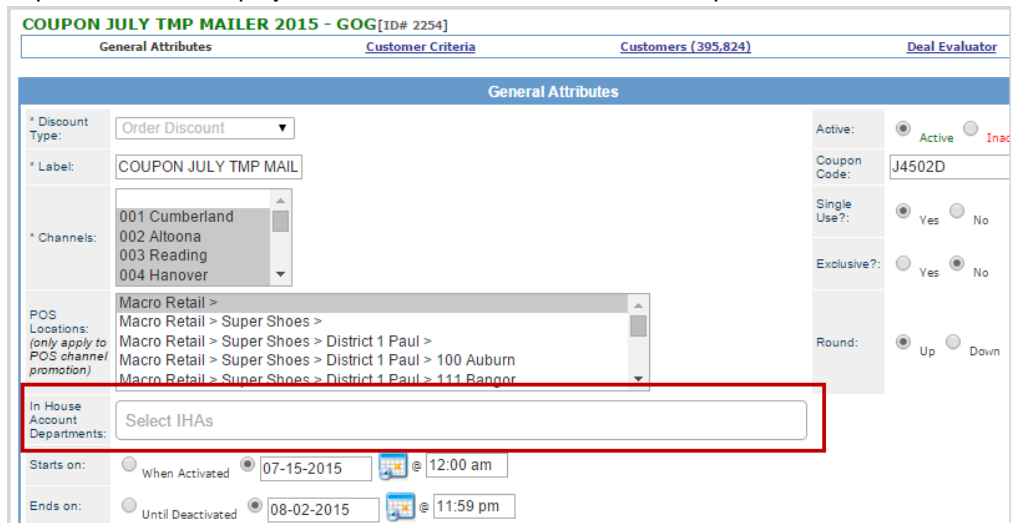

Fields to display in Recent Order Items:	Product General and Custom Attributes
	id
	name
	base_price
	void
	part_num
	manufacturer_id
	type
	minimum_advertised_price
	default_shipping_weight
	default_shipping_height

Enhancement: PS - 4009 IHA Selector in Deal Manager

Version: 7.4

System Path: Deal Manager

Description: Enlarged and reconfigured the IHA selector box in the General Attributes of the Deal Manager to accommodate longer IHA names. A tag-style multi-selector was implemented to simplify the selection and addition of IHA departments to Deals.

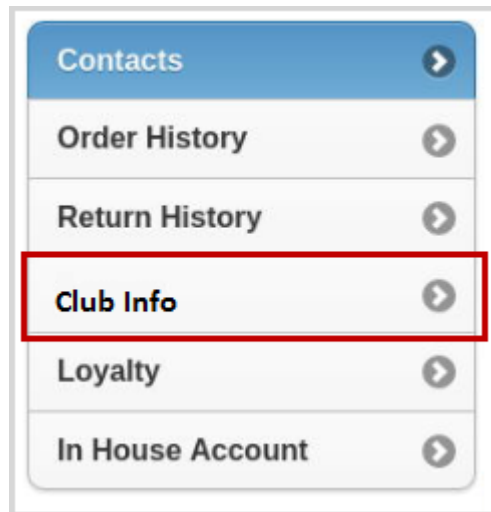

Enhancement: PS - 4061 Club Information in Customer History

Version: Connect POS

Description: Added Club Membership indicators to customer button, customer search results, and customer detail screen. Feature includes ability to add icon display next to customer's name as indicator of active club membership. Contact CORESense support to request setup.

Club Info option added to customer account history options.

Enhancement: PS - 4094 eBay Product Identifiers

Version: 5.15, 7.4

System Path: eBay

Description: Per eBay requirement for additional mandatory fields, added support for sending Brand, MPN, UPC, EAN, and ISBN to eBay.

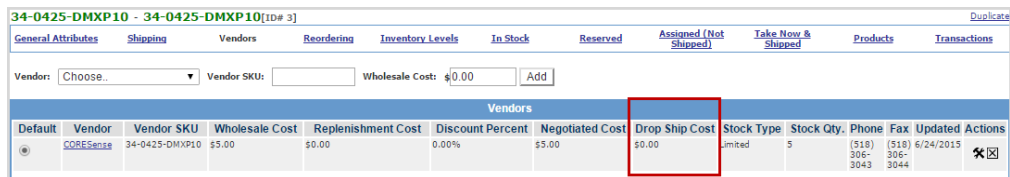

- For non-variations listings, this is either pulled off of the eBay fields. If those are not specified, we look to see if a single SKU is being launched on this auction. If that is the case, we pull those fields off the SKU and pass them.
- For variations listings, we send Brand from the eBay fields, and then send UPC, EAN, ISBN or MPN from the SKU, assuming that a single SKU matches each variation.

Enhancement: PS - 4107 Drop Ship Cost

Version: 7.4

System Path: Inventory Manager

Description: Added a field, "Drop Ship Cost" to the Inventory Manager > SKU Detail > Vendors > Vendor record. The value defaults to the Wholesale Cost value, but can be overwritten, and will be used when creating drop ship Purchase Orders for the SKU.. Field is also available in: Product Manager, New Product Wizard and Product/SKU Import.

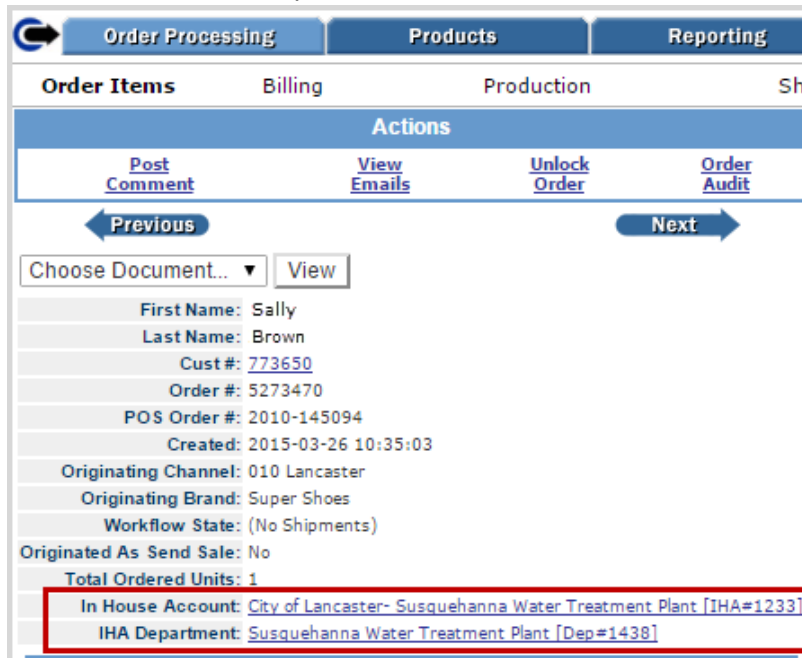

Default	Vendor	Vendor SKU	Wholesale Cost	Replenishment Cost	Discount Percent	Negotiated Cost	Drop Ship Cost	Stock Type	Stock Qty.	Phone	Fax	Updated	Actions
	CORESense	34-0425-DMXP10	\$5.00	\$0.00	0.00%	\$5.00	\$0.00	Limited	5	(518) 306-3043	(518) 306-3044	6/24/2015	✖ ☒

Enhancement: PS - 4128 IHA Department Name on Order

Version: 7.4

System Path: Order Manager

Description: If an order was made by a customer in an IHA Department, the Back Office user can now see a link to that department in the Order Quick Info section.

First Name: Sally
 Last Name: Brown
 Cust #: 773650
 Order #: 5273470
 POS Order #: 2010-145094
 Created: 2015-03-26 10:35:03
 Originating Channel: 010 Lancaster
 Originating Brand: Super Shoes
 Workflow State: (No Shipments)
 Originated As Send Sale: No
 Total Ordered Units: 1

In House Account: City of Lancaster- Susquehanna Water Treatment Plant [IHA#1233]
IHA Department: Susquehanna Water Treatment Plant [Dep#1438]

Enhancement: **PS - 4131 Customer Info on Barcode Labels**

Version: 7.4

System Path: Label Generation Wizard

Description: Added the ability to have customer names and order number print on receiving barcode labels. Under Products > Purchase Order Manager > Receive, when printing the labels if the SKU has an order associated with it (i.e. JIT), it prints the customer (billing) name and order number with the label. To accommodate for the two new fields, a new label format needs to be added to your Label Formatting set so that it can be selected from Label Generation Wizard.

Enhancement: **PS - 4166 Google Universal Analytics**

Version: 5.15, 7.4

System Path: Website Template Plug-in

Description: Modified the website Google analytics plug-in to have support for the new universal analytics platform.

In the Website Template manager, edit the Google analytics website plug-in for the desired project. There are two new options:

1. Universal Analytics
2. Remarketing and Advertising Reporting

Enable the former to turn universal analytics on and start outputting the new tracking code. Enable the latter to add the remarketing support.

Note that Google Universal Analytics has a \$249 activation fee. Please contact CORESense professional services if you want to implement platform.

Enhancement: **PS - 4167 eWallet Refresh**

Version: 5.15, 7.4

System Path: Website Template Plug-in

Description: Modified the eWallet plug-in to allow creation/updating of a credit card record without being redirected to the My Account page or losing other data from the surrounding form.

Add the following line to the add card form of the eWallet listing plug-in:

```
<input type='hidden' name='tag_name' value='{tag_name}' />
```

With this input, eWallet listing can now be performed asynchronously (without reloading page). If it is not present, the credit card is still be added but the page will reload.

Enhancement: **PS - 4191 Inventory Add/Remove Permissions**

Version: 5.15, 7.4

System Path: Inventory Manager > In Stock

Description: Added two system permissions to restrict access to the Add Inventory and Remove Inventory functionality in the Inventory Manager. The permissions are labeled as:

- Inventory Manager - In Stock - Add/Remove
- Inventory Manager - In Stock - Edit

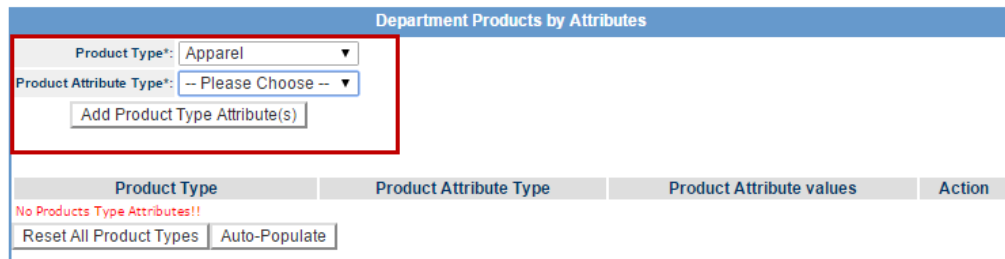

These permissions are available to existing users by default, if you want to limit In Stock add/remove functionality access to specific users, remove these permissions from their user profile.

Enhancement: **PS - 4195 IHA Product Assignment by Product Type**

Version: 7.4

System Path: Order Processing > In House Accounts

Description: Added the ability to assign products to IHA departments using product type attributes. This now allows users a third method to include products in addition to the existing merchandise hierarchy and product ID options.

Enhancement: **PS - 4246 Malvern Export Update**

Version: 5.15, 7.4

System Path: Shipping > Malvern Export

Description: Updated Malvern export so it assigns a channel ID that corresponds to the order's originating channel.

Enhancement: **SS - 1725 Customer Comments Filter in Order Manager**

Version: 7.4

System Path: Order Manager

Description: Added the ability to filter order search results by whether or not the order has customer comments via drop-down in Order Manager General Attributes section.
