Enhancement: PD-1736: Shippo Updates

Version: 7.4

System Path: Shipping > Shippo

Description: The following updates were made to the Shippo integration.

1. Added the ability to print a Shippo label from the Shipment Manager search results, like you can with FedEx labels.
2. Added the ability to print a Shippo label from the Packing Validation Manager, like you can with FedEx labels.
3. In the System Settings Manager, changed the "API Key" label to "Token", to match the terminology found on the Shippo site.

Bug List

The bug list is intended for reference only. In an effort to prevent any potential self-misdiagnosis, if you think that you have experienced a cited issue, please contact Support Team to verify. Although a listed bug might sound similar to your situation, it is best to confirm it.

Bug #	Description
