

Summer 2017 Product Release Information

Product:	CORESense Application Software
Release Number:	Versions 5.15, 7.4 and higher
Release Dates:	Release Date: June 27, 2017 Current Release Type: RC 2(Stay Thirsty) General Release: August 1, 2017
Also Includes Items from Release(s):	Beta 1, RC 1, Beta 2

What's New?

Following is a summary of the bug fixes for this software release. Unless you requested to be a Release Candidate, the fixes listed below are not available until the General Release date noted above.

Enhancement: **PS-4876: Thick Box Pop-up**

Version: 7.4

System Path: Order Manager and Customer Manager

Description: Restored Thickbox 3.1 in the 7.4 Back Office so that the pop up Comment box is more accessible and post/cancel buttons can be viewed.

Enhancement: **PD-1473: Connect POS Cancel Layaway**

Version: 7.4

System Path: Connect POS

Description: Removed Cancel Layaway button from customer order history.

Enhancement: **PD-1432: New MasterCard Numbering**

Version: 7.4

System Path: System

Description: Beginning in 2017, MasterCard cards will also be issued with account numbers beginning with a "2". The cards beginning with a 2 will be processed in the same manner as current MasterCard cards.

Enhancement: **SS-1260: FedEx Date Calculation**

Version: 7.4

System Path: Estimated Delivery Date

Description: Updated the Estimated Delivery Date calculation for FedEx to take transit times of ONE_DAY, TWO_DAY, etc. (up to 10) and add that many days to the current date/time and return that as the estimated delivery date.

Enhancement: **PD-1429: Amazon Feeds**

Version: 7.4

System Path: Amazon

Description: Updated the Amazon Process Logs Viewer to be able to specify which feed type to look at.

Bug List

IMPORTANT: The bug list is intended for reference only. In an effort to prevent any potential self-misdiagnosis, if you think that you have experienced a cited issue, please contact Support Team to verify. Although a listed bug might sound similar to your situation, it is best to confirm it.
